Engaging puzzle game!

It's hard, hard in an unforgivable way, but keeps dragging you back to squeeze out an edge against your opponents from your last resources.

- + Engaging, fair but hard game play
- + Humorous and witty plot
- + No real-time action, simply turn-based (quite a relief when you need to keep an eye on your kids every now and then)
- + Hot-seat multiplayer
- + Catchy tune

- The 90's want their GUI and 3D graphics back (is it programmer's graphics?). Nice little game, easy 100%. pretty good game. This game has a lot of potential and in some ways is superior to Red Orchastra 2. I'm very hopeful there is an American and Japanese expansion planned.

EDIT: "Warning. This area is mined. Please go away." Remove this feature and make the game playable again.. It's an alright TrackMania clone where the difference is being able to glide and on-the-fly track generation.

Flying isn't the correct word here, as gliding makes more sense, because that implies you can use jets or something to create speed midair. There are midair boosters that can help you gain altitude. When gliding, you can obtain black cubes to bring back to the main gate, so it ends up playing as an escort racer.

There are on-track boosters to hit and gates to get through. Some track pieces don't have guard rails. I also like the looping segments.

The single player challenges are quite hard, especially the flying missions. All I can manage is bronze, if I'm lucky. I find the game to really be testing my knowledge and skill with the mechanics.

If I were to give bad remarks, it would be the gliding controls in one key area. For whatever reason, when I am purposely trying to take a nosedive and steer, the racer wants to go in the opposite direction of my steering. I have played games with better gliding controls, like Diddy Kong Racing for N64. Another thing is lacking a speedometer. I want to see one. The online mode is sad to see no one playing.

Conclusion is wait for a sale to buy, if you are willing to overlook online play. For a Unity game running on a budget laptop, it plays smoothly for me, ranging from 30-60FPS.. This Pack is really great, I love that they included a map with a game set up... I highly recommend!

I am excited about all the possibilities it offers

Fantastic Work!. Very good.

Some tough puzzles but all of them are achievable and plausible.

Great visuals and sound and an intriguing story.

Can't wait for the next chapter.. A really cool painting tool! Easy to learn its features and you can create awesome art work pretty fast. It might take a while to master them though... since this software gives a different kind of freedom compared to other painting software.

Experiment alot when you try to make your own brushes. You might end up making a super cool brush on accident. Also, don't forget to download other people's brushes on Bleank's forums!. Great game, love it dearly, really addictive but its better to just play for free on mobile, im only buying it to support the game

At first it may seem like you only get a small trailer for Cluj-Napoca, but go into your game library, where it says "games" click the dropdown to videos, and you will get the current videos that are out, and I believe more will be added. Don't just rate poorly because you didn't look farther. The other videos are really good as well.. The best word to describe *Fortix* is simple. Simple in its mechanics, gameplay, and visuals.

You'll get about as much mileage as you'd expect out of Fortix for it's \$0.99 pricetag, and the achievements are rather frustrating, as on Impossible difficulty you're going to experience a number of rage-inducing moments.

4/10. Simple and just boring puzzle game. There are many better games like this done in the past, just like Pushy II e.g.. Thalzon battlers blend better with the cute-ish sideview battlers than the vanilla ones. BTW vanilla MV slime is SO UGLY AND AWFUL that i bought rpgmaker 2003 just for the slime.

Also, I bought this because it includes Noh:. Bombslinger is the kinda Bomber Man like concept I've been hoping for for years! I've enjoyed more than a few Bomber Man games but the same ol grid arena battles for the single player mode always felt lacking. Bombslinger has totally figured that scenario out! It plays more like the original Zelda, you can walk around a map in any direction, with seemingly random area designs for each new room you enter. Getting to use the Bomber Man four-way explosion mechanic in a kind of action RPG style game really gives it a feel all its own. Also the 2D/3D Pixel art style looks great and totally works with the overall aesthetic of the game!. \u8fd9\u662f\u6b3e\u5f88\u77ed\u5c0f\u7684\u6e38\u620f\u5c0f\u65f6\u95f4\u5305\u62ec\u5361\u5173\u54c4\u4e0d\u8d85\u8fc7\u4e09\u5c0f\u65f6\u4f46\u662f\u4f5c\u4e3a\u4e00\u4e2aPhD\u54c4\u8fd9\u6e38\u620f\u771f\u7684\u6233\u4e2d\u6211\u7684\u75db\u4e86\u63a8\u8350\u6240\u6709PhD\u6765\u611f\u53d7\u4e00\u4e0b\u54c4\u4ee5\u53ca\u5176\u4ed6\u66fe\u7ecf\u76ee\u6807\u8003\u8651\u8fc7\u8bf4\u6765\u7684\u4e0d\u8981\u628a\u5b83\u5f53\u6210\u6e38\u620f\u800c\u662f\u4e00\u4e2a\u6545\u4e8b\u6765\u73a9
